

Safe and effective dental care requires close attention to patient needs while managing the various risks associated with clinical practice. Implementing effective patient safety and risk management strategies to protect your patients and your practice can help to improve patient outcomes and minimize the possibility of a malpractice claim. Learn from the experiences of your colleagues, as our presentation and discussion of claim scenarios teach you and your staff about key risk exposures.

Upon completion of this course, participants should gain knowledge to:

- Implement a team approach to patient safety and risk management practices.
- Effectively apply the informed consent process to improve patient understanding, safety and satisfaction.
- Enhance and apply skills and principles such as emotional intelligence, empathy and active listening to facilitate effective communication with patients, co-workers and colleagues.
- Develop and implement methods to document and assess adverse outcomes and patient dissatisfaction.
- Assess the risk management implications of various doctor-patient interactions, including informed refusal and patient termination.
- Implement record keeping practices that enhance patient care and reduce malpractice risks.
- Understand how the standard of care and negligence apply to dental professional liability.

One of the most comprehensive risk management programs available, the CNA Dental Professional Liability Risk Management Seminar is presented by a dentist with risk management experience and includes an update of state-specific issues by a local defense attorney.

By completing the seminar, attendees will earn up to 4.5 hours of continuing education credit.*

This informative program will motivate you to assess your practice, apply critical thinking, make prudent choices that enhance patient care and help you to reduce your risk of a malpractice claim.

All dentists who are insured through the Professional Protector Plan® (PPP) for Dentists will receive a premium credit on their professional liability premium upon renewal for three consecutive years. Dentists not currently insured by the PPP may qualify for the credit if they purchase their coverage within one year of attending the seminar.

*This may vary, according to review and approval by state boards of dentistry.

Please remember that only the relevant insurance policy can provide the actual terms, coverages, amounts, conditions and exclusions for an insured. All products and services may not be available in all states and may be subject to change without notice.
